

The screenshot shows the 'Site license properties' page in Qlik Sense. It features the Qlik logo and 'Sense' branding. The main content area displays a 'Signed license key' (partially redacted) and 'License details' including: 'isBlackListed: False', 'License Number', 'Valid From: 2021-12-20 12:00:00 AM', 'Valid To: 2024-12-21 12:00:00 AM', 'Allotment professional: 30', 'Allotment geanalytics: 1', 'Name: cloud_service', 'Value: true', and 'Valid: 2024-12-21'. A sidebar on the right contains 'License management' options: 'License usage summary', 'Professional access allocations', 'Professional access rules', and 'Site license' (which is selected).

The screenshot shows the 'Professional access allocations' page. At the top, it indicates 'Showing: 13' and 'Selected: 1'. Below this is a table with columns: 'User...', 'Status', and 'Last used'. The table lists 13 rows of allocations, with the last row for 'Krishna N...' being selected. The 'Status' for all rows is 'Allocated'. The 'Last used' dates range from 2022-06-01 11:06 to 2022-06-02 10:48. A sidebar on the right shows 'License management' options: 'License usage summary', 'Professional access allocations' (selected), 'Professional access rules', and 'Site license'. At the bottom, there are 'Deallocate' and 'Allocate' buttons.

About
Third-party software

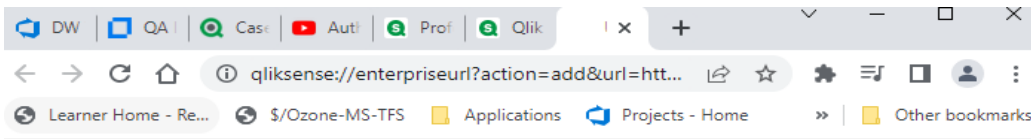

Qlik Sense February 2022 Patch 2 >

qliksenseserver:14.54.5

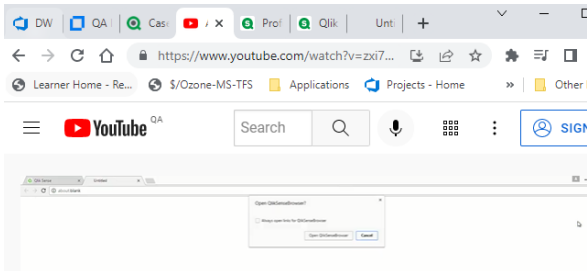

The screenshot shows the 'Edit virtual proxy' configuration page. It includes fields for 'Description', 'Prefix', 'Is default virtual proxy', 'Session inactivity timeout (minutes)' (set to 30), and 'Session cookie header name'. The 'CLIENT AUTHENTICATION LINK' section contains 'Client authentication link host URI' (https://...), 'Client authentication link friendly name' (FO Qlik Sense Enterprise), and a 'Generate' button. The generated result is a long alphanumeric string. A 'Properties' sidebar on the right shows 'Identification' (checked), 'Authentication', 'Load balancing', 'Advanced', 'Integration', 'Client authentication link' (checked), 'Tags', and 'Custom properties'. An 'Associated Items' sidebar shows 'Proxies'.

The screenshot shows the Qlik Sense Enterprise 'Work' area. The header includes the Qlik logo, 'Sense® Enterprise', a search icon, and a menu icon. The 'Work' area contains a 'Test App01' card. A dropdown menu is open, showing options: 'Client authentication', 'Dev Hub', 'Help', 'About', and 'Privacy Policy', each with a copy icon.

On click on Client authentication. I get the URL on new tab like below and where I am stuck and need your help how to debug and get Qlik Sense desktop working.

I don't see any popup. As it shows on youtube demo.

The Qlik Sense desktop version installed on system is

QlikSenseBrowser.exe Properties
