Steps to Migrate QlikView Server from One Machine to another

(Server 1 to Server 2)

1. Server 1 with reload tasks

Status Documents Users System			QlikView
Tasks Services QV5 Statistics			Help
Search for tasks			< Show Task Details
Name 🍸	Status 🕤	Last Execution T	Started/Scheduled
🖃 🌼 ReloadEngine@umerpc			
Control C	A b Waiting	Never	10/14/2016 12:00:00 AM
😭 Reload of Retail Store Performance.qvw	V Kaiting	Never	10/14/2016 12:00:00 AM
st updated @ 10/13/2016 11:53:58 AM		Activ	rate Windows
		4010	settings to activate Windows.

- Copy folder named QVPR (Server 1) from the following path: C:\ProgramData\QlikTech\ManagementService
- 3. Now Install QlikView Server on other machine (Server 2)
- 4. Stop the following Services from Server 2

101 Deserves Connectibility Assistant Consist	This section	D	Automatia	La cal Custa
QlikView Directory Service Connector	Keeps track	Running	Automatic	.\QService
QlikView Distribution Service	The service	Running	Automatic	.\QService
🖏 QlikView Management Service	Hosts the M	Running	Automatic	.\QService
🖏 QlikView Server	Hosts the Q	Running	Automatic	.\QService
🖏 QlikView Webserver	The web ser	Running	Automatic	.\QService
Constitution of the Minister of the Audio Minister of the Audio Minister of the Audio Minister of the Audio	Our lite Min	-	Manual	Level Consider

 Paste the copied folder on the same path: C:\ProgramData\QlikTech\ManagementService

- 6. Change all references to Server1 in the following files to Server2:
 - i. C:\ProgramData\QlikTech\ManagementService\QVPR\DirectoryResource.xml
 - ii. C:\ProgramData\QlikTech\ManagementService\QVPR\DistributionService.xml
 - iii. C:\ProgramData\QlikTech\ManagementService\QVPR\DSCResource.xml
 - iv. C:\ProgramData\QlikTech\ManagementService\QVPR\QDSCluster.xml
 - v. C:\ProgramData\QlikTech\ManagementService\QVPR\QlikViewServerResource.xml
 - vi. C:\ProgramData\QlikTech\ManagementService\QVPR\QVSCluster.xml
 - vii. C:\ProgramData\QlikTech\ManagementService\QVPR\QvWebServiceResource.xml

Refer the figure below:

7. Go to Server1 and follow the following path

C:\ProgramData\QlikTech\QlikViewServer

Right Click on "Settings.ini" >> Edit >> Copy the line as shown in the following path

- 8. Now, Go to Server2 and follow the following path C:\ProgramData\QlikTech\QlikViewServer
 Right Click on "Settings.ini" >> Edit >> Paste the copied line on the very first line after [Setting 7] Keyword
- 9. Start all services on Server 2.
- 10. Apply License for QlikView Server using QlikView Management Console on Server 2.
